(From April 1, 2023 to March 31, 2024)

### 1. Current status of the Group

#### (1) Status of operations for the fiscal year under review

##### 1) Progress and results of business

We are pleased to announce a summary of operating results of our 20th term (April 1, 2023 to March 31, 2024). During this fiscal year, economic sentiment in Japan continued to recover moderately due to factors such as improvements in the employment and income environments and the effects of various policies.

Regarding the real estate market conditions, the housing sales market saw sales prices rise, as a result of continued strong demand while the number of units supplied per year in the Tokyo metropolitan area fell for the second year in a row. Background factors fueling the strong demand included stable mortgage interest rates and higher household income among buyers due to a rise in dual-income households. In the leasing office market, we saw demand for higher value-added offices in line with the diversification of work styles, and vacancy rates improved mainly in the central areas of Tokyo. In addition, in the retail facilities and hotel market, which had been severely affected by the COVID pandemic, service consumption and inbound demand continued to recover after restrictions on movement and entry into Japan were lifted. In the real estate investment market, although long-term interest rates are on a gradual upward trend in Japan, the volume of property transactions remained strong due to the continued good domestic fund procurement environment and strong appetite for investment among investors, and the size of the market continued to grow. The real estate brokerage market for used housing remained robust, with the number of transactions for used condominiums in the Tokyo metropolitan area proceeding at a high level and transaction prices continuing to rise, etc., due to strong demand.

In this business environment, the Nomura Real Estate Group (the “Group”) posted the following consolidated performance for this consolidated fiscal year: Operating revenue of ¥734,715 million, which represents an increase of 12.2% year on year; operating profit of ¥112,114 million, an increase of 12.6%; business profit of ¥113,665 million, an increase of 8.1%; ordinary profit of ¥98,248 million, an increase of 4.4%; and profit attributable to owners of parent of ¥68,164 million, an increase of 5.6%.

(4) Issues to address

Having defined our 2030 Vision “Be a ‘Life & Time Developer,’ as never seen before,” we are working to evolve our value creation and transform ourselves, to enrich people’s respective lives and every moment of their time. In the mid- to long-term business plan that we formulated in April 2022, we set targets for the fiscal year ending March 31, 2031 of business profit of ¥180 billion or more, ROA of 5% or more, and ROE of 10% or more. To achieve these targets, we have put in place the following important strategies: further expansion of domestic real estate development business; high profit growth of Service & Management Sector; and steady growth of overseas business.

Values toward lifestyle, work style, consumption, and leisure are changing and diversifying, digital technology is evolving ever faster, and societal demand for sustainability is growing. To carry out our vision, we must address these kinds of shifts from a medium- to long-term perspective. Currently, we must closely watch how rising interest rates and inflation in Japan and overseas affect the real estate market, business performance, personal consumption, etc. We must also closely watch, in particular, the rise in construction costs caused by soaring material prices and labor costs, the shrinking labor force in Japan, and the intensifying competition for human resources.

Recognizing this environment, we recognize the following tasks ahead on the path to achieving sustainable growth and are working to address them. In the Development Sector, we must build a foundation for medium- to long-term growth through efforts such as securing business volume, controlling risks in response to changes in the business environment, and tackling new business areas. In the Service & Management Sector, we must boost productivity so that we can continuously develop and provide high-quality, highly competitive services.

We must also promote digital transformation throughout the entire Group as this leads to the evolution of value creation and transformation of ourselves, and promote specific initiatives for sustainability and human capital management.

In the area of human resources, through the activities of the Human Resources, Wellness, D&I Committee, we will align our human capital management to our business strategies and promote it across the Group, alongside our ongoing efforts on working with vigor and achieving wellness, work style reform, and diversity and inclusion.

Furthermore, we will move\* the Group’s head offices to the South Tower, which is scheduled for completion in 2025, in the large-scale mixed-use Shibaura Project. We will work to accelerate collaboration between the Group’s businesses, while realizing the well-being of each employee, as we pursue growth into an even more innovative corporate group.

Through such initiatives, we will strive to realize a sustainable increase in corporate value. We appreciate the continued support and encouragement of our shareholders.

\* Companies subject to the move are still under consideration.

In addition, the Company established the Advisory Committee Relating to Nominations and Compensation, where the majority of members composing that body are Independent External Directors, and the Board of Directors resolved the operation, etc. of the compensation plan for the Directors, based on the deliberation by the committee and on the committee's opinion reported to the Board of Directors.

The details of the policy regarding decisions of the details of the compensation, etc. for each individual Director are as follows.

A) Basic policy
a) Compensation for Directors consists of a structure that is linked to the mid- to long-term business plan, etc. in order to sufficiently work as an incentive for the sustainable improvement of corporate value, and the Company's basic policy in deciding compensation for each Director is to provide an appropriate level of compensation according to the role and position as a Director.
b) Operation and revision of the compensation plan for Directors and the amount of the compensation for Directors are determined by the Board of Directors based on the deliberation by the Advisory Committee Relating to Nominations and Compensation and its opinion reported to the Board of Directors.
c) In reviewing the appropriateness of the compensation level and the content of the share-based compensation plan, the Company takes consideration of factors such as the size of the Company and business characteristics, after obtaining advice from an external compensation consultant as necessary.
d) Compensation of Directors concurrently serving as Executive Officers consists of "base compensation," "bonus" and "share-based compensation" so that it works as a

clear incentive to improve performance not only for the short-term, but also for the medium- to long-term.
e) Compensation of the Chair and Director and External Directors is made up of the “base compensation” and the “restricted shares (“RS”) portion of share-based compensation,” taking into account the sharing of interests with shareholders, since the Chair and Director is responsible for supervising execution of business from an objective standpoint and also for enhancing long-term corporate value.
f) Compensation of Part-time Internal Directors consists only of “base compensation” due to their role of supervising the business execution from an objective standpoint.

a) The amount of bonus is determined according to the Company’s business performance, such as consolidated business profit, and evaluation of individuals.
b) The evaluation of performance retains a central emphasis on evaluation above but also evaluates by non-financial indicators (sustainability factors, etc.).

d) It shall be paid at a certain time after the end of each fiscal year.
<Share-based compensation>
a) The performance-based compensation adopts performance-sharing (“PS”) providing incentive for enhancement of medium- to long-term performance, and implements, after three years of the commencement of each business year, delivery or payment (“delivery, etc.”) of the Company’s shares and/or an amount equivalent to the proceeds of converting the Company’s shares into cash (the “Company Shares, etc.”).
b) The non-performance-based compensation adopts restricted shares (“RS”) providing an incentive for long-term contributions and enhancement of corporate value to delay delivery, etc. until retirement as an officer.

	<p>c) The share-based compensation adopts the system of executive compensation BIP (Board Incentive Plan) trust (the “Trust”). The Company Shares, etc. to be delivered, etc. is set at one Company’s share per one point, according to the number of points calculated based on the formula below.</p> <p>[Calculation formula of points]</p> <ul style="list-style-type: none"> <li>• PS portion</li> </ul> <p>The number of points (the “Number of PS Points”) to be granted to Directors for each fiscal year during the covered period is calculated by dividing the amount of pre-determined base compensation with respect to each executive position by the share price as of the acquisition of the Company’s shares by the Trust.</p> <p>The number of performance-based points shall be calculated by multiplying the Number of PS Points granted for each fiscal year by the performance-based coefficient determined based on the level of performance three years after the beginning of the applicable fiscal year.</p> <p>For the performance-based coefficient, the target ranges (0-200%) are set based on the “business profit” from the viewpoint of profit growth, and return on equity (ROE) from the viewpoint of maintaining the capital efficiency, out of the management benchmarks listed in the mid- to long-term business plan.</p> <ul style="list-style-type: none"> <li>• RS portion</li> </ul> <p>The number of points (the “Number of RS Points”) to be granted to Directors and added for each fiscal year during the covered period is calculated by dividing the amount of pre-determined base compensation with respect to each executive position by the share price as of the acquisition of the Company’s shares by the Trust.</p>
E)	<p>Matters regarding the method for determining the details of compensation for each Director</p>
	<p>a) The determination of the specific details of the amount of base compensation and bonuses, both of which are monetary compensations, to be paid out is delegated to the President and Representative Director based on a resolution of the Board of Directors.</p>
	<p>b) The payment level shall be deliberated by the Advisory Committee Relating to Nominations and Compensation for the appropriate exercise of the authority stated in a) above by the President and Representative Director.</p>
F)	<p>Other important matters relating to compensation for each Director</p> <p>Regarding share-based compensation, the Company formulated “share delivery regulation” to handle repayment claims at an amount equivalent to the Company Shares, etc. to be delivered, etc. in the event that specific circumstances (improper conduct, etc.) occur.</p>

b. Resolutions at the General Meeting of Shareholders regarding compensation, etc. for Directors

Monetary compensation	The amount of monetary compensation has been set as no greater than ¥550 million per year for Directors (excluding Directors as Audit & Supervisory Committee Members) according to a resolution at the Ordinary General Meeting of Shareholders held on June 26, 2018, and at the time of the resolution, the number of Directors (excluding Directors as Audit & Supervisory Committee Members) was eight (of which, two were External Directors). The number of Directors as Audit & Supervisory Committee Members at the time of the resolution was six (including four External Directors).
Share-based compensation, etc. (non-monetary compensation, etc.)	Apart from the monetary compensation above, the Company has introduced a performance-based stock incentive plan. In accordance with a resolution at the Ordinary General Meeting of Shareholders held on June 24, 2022, the Company's contribution to a trust as compensation for Directors (excluding Directors as Audit & Supervisory Committee Members) will be an amount of not more than ¥1,650 million over the relevant period of three fiscal years for this compensation plan. The number of Directors (excluding Directors as Audit & Supervisory Committee Members) who were subject to the plan at the time of the resolution was seven (including one External Director).

c. Matters regarding the delegation of decisions on the details of the compensation for each individual Director excluding Audit & Supervisory Committee Members

Delegatee	President and Representative Director Satoshi Arai

Therefore, the President and Representative Director shall decide the details. The payment level is deliberated by the Advisory Committee Relating to Nominations and Compensation for the appropriate exercise of the decision authority delegated to the President and Representative Director.
Reason for the delegation	The reason for the delegation to the President and Representative Director is that the Company has judged the President and Representative Director as appropriate to conduct the individual evaluation of each Director while considering, among other things, performance of the Company overall.

The number of Directors (excluding Directors as Audit & Supervisory Committee Members) is currently six (including one External Director) as of the end of the fiscal year under review.
2. The amount paid above is shown as the amount of compensation, etc. for the fiscal year under review, recorded by the Company as an expense regardless of whether it was paid during the fiscal year under review.
3. With respect to the share-based compensation, etc. (non-monetary compensation, etc.), the number of persons paid of performance-based compensation includes the current Chair and Director. This is because the amount of compensation, etc. recorded as an expense in the fiscal year under review was the amount of payment of share-based compensation (performance-based compensation) allotted during the period when he served as an executive Director in the past.
4. With respect to the performance-based compensation, the details of factors including the performance indicators that pertain to bonuses, which are monetary compensation, the calculation method of such bonuses and the reasons for selecting these indicators are as stated in the "a. Policy, etc. regarding decisions on the details of compensation, etc. for Directors," and the actual results that pertain to performance indicators are as presented in the table below. As shown in Note 2 above, the amount of compensation, etc. recorded by the Company as an expense during the fiscal

year under review was the amount paid as “monetary compensation” above. Furthermore, the difference (¥13 million) between the provision for bonuses for Directors (and other officers) for five Directors (excluding Directors as Audit & Supervisory Committee Members and External Directors) in the previous fiscal year and the bonus amount paid during the fiscal year under review is not included in amount paid in “Bonus (Performance-based incentive, etc.)” above.

	Business profit	Year-on-year change
Fiscal year ended March 31, 2024	¥113,665 million	+8.1%

5. With respect to the performance-based compensation, the details of factors including the performance indicators that pertain to share-based compensation, etc., the calculation method of such share-based compensation, etc. and the reasons for selecting these indicators are as stated in the “a. Policy, etc. regarding decisions on the details of compensation, etc. for Directors,” and the actual results that pertain to performance indicators are as presented in the table below.

	The achievement-linked coefficient	Business profit	ROE
Fiscal year ended March 31, 2024	143.0%	¥113,665 million	10.1%

6. The amount paid as “share-based compensation, etc. (non-monetary compensation, etc.)” above is shown as the amount recorded as an expense associated with the executive compensation BIP trust points granted as compensation, etc. As stated in the “a. Policy, etc. regarding decisions on the details of compensation, etc. for Directors,” with respect to the performance-based compensation of the share-based compensation, etc., the number of the Company’s shares, etc. to be delivered, etc. is determined by multiplying the number of points granted for each fiscal year by the performance-based coefficient determined based on the level of performance three years after the beginning of each applicable fiscal year. In the fiscal year under review, there arose a difference (¥4 million) between the amount recorded in the past fiscal years as expenses for the points granted to two Directors (excluding Directors as Audit & Supervisory Committee Members and External Directors) and the amount paid as a result of delivery, etc. of shares, etc. in the fiscal year under review. This difference is not included in amount paid in “Share-based compensation, etc. (non-monetary compensation, etc.)” above.
7. Non-monetary compensation, etc. consists of the Company’s shares, etc. and the conditions, etc. for delivery are as stated in the “a. Policy, etc. regarding decisions on the details of compensation, etc. for Directors.”
8. The Company revised the policy regarding decisions of the details of the compensation, etc. for each individual Director excluding Audit & Supervisory Committee Members from the previous fiscal year, deciding that the details and calculation method for performance indicators, etc., relating to bonuses, which are monetary compensation, would retain a central emphasis on evaluation of performance in terms of consolidated business profit, etc., but would also now include an evaluation by non-financial indicators (sustainability factors, etc.). The purpose of this change is to increase Directors’ awareness of sustainability, and in the fiscal year under review, the Company conducted an evaluation based on BEI\* as a non-financial indicator.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position and results of operations of the Nomura Real Estate Group, which consisted of the Company and consolidated subsidiaries, applicable to the fiscal year ended March 31, 2024 in conformity with accounting principles generally accepted in Japan.

*Basis for Opinion*

We conducted our audit in accordance with auditing standards generally accepted in Japan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company and its consolidated subsidiaries in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Japan, and we have fulfilled our ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

*Other Information*

The other information refers to the business report and its supplementary schedules. Management is responsible for preparing and disclosing the other information. In addition, the Audit & Supervisory Committee is responsible for overseeing the Directors' performance of duties within the maintenance and operation of the reporting process for the other information. The scope of our audit opinion on the consolidated financial statements does not include the content of the other information, and we do not express an opinion regarding the other information.

Our responsibility in auditing the consolidated financial statements is to read through the other information, and in the process of reading it, we examine whether there are material differences between the other information and the consolidated financial statements or the knowledge we have gained in the auditing process, and we also pay attention as to whether there are any indications in the other information of material errors besides such material differences.

If we determine there to be material errors in the other information based on the work we have performed, we are required to report those facts.

There are no matters to report regarding the other information.

*Management's and Audit & Supervisory Committee's Responsibility for the Consolidated Financial Statements*

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in Japan, and for designing and operating such internal control as management determines is necessary to enable the preparation and fair presentation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing whether it is appropriate to prepare the consolidated financial statements with the assumption of a going concern, and in accordance with accounting principles generally accepted in Japan, for disclosing, as necessary, matters related to going concern.

Audit & Supervisory Committee is responsible for overseeing the Directors' performance of duties within the maintenance and operation of the financial reporting process.

### *Auditor's Responsibility for the Audit of the Consolidated Financial Statements*

Our responsibilities are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that expresses our opinion on the consolidated financial statements based on our audit from an independent point of view. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the decisions of users of these consolidated financial statements.

In accordance with auditing standards generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the audit process to perform the following:

- Identify and assess the risks of material misstatement, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Selecting audit procedures to be applied is at the discretion of the auditor. Obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.
- When auditing the consolidated financial statements, obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances in making risk assessments, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.
- Evaluate the appropriateness of accounting policies used by management and their method of application, as well as the reasonableness of accounting estimates made by management and related notes thereto.
- Conclude on the appropriateness of preparing the consolidated financial statements with the assumption of a going concern by management, and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the notes to the consolidated financial statements or, if the notes to the consolidated financial statements on material uncertainty are inadequate, to express a qualified opinion with exceptions on the consolidated financial statements. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate whether the presentation of the consolidated financial statements and notes to the consolidated financial statements are in accordance with accounting standards generally accepted in Japan, as well as evaluate the presentation, structure, and content of the consolidated financial statements, including the related notes thereto, and whether the consolidated financial statements fairly present the underlying transactions and accounting events.
- Obtain sufficient appropriate audit evidence regarding the financial information of the Company and its consolidated subsidiaries to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the consolidated financial statements. We remain solely responsible for our audit opinion.

We report to the Audit & Supervisory Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit process, and other matters required by auditing standards.

We also provide the Audit & Supervisory Committee with a statement that we have complied with relevant ethical requirements in Japan regarding independence, and to communicate with them all relationships and other matters that may reasonably be deemed to bear on our independence, and where applicable, related countermeasures in order to eliminate obstruction factors or related safeguards in order to reduce obstruction factors to an acceptable level.
